Brand New Book. *Competing Kingdoms* rethinks the importance of women and religion within U.S. imperial culture from the early nineteenth century to the mid-twentieth. They did much to shape a Protestant empire based on American values and institutions. This book examines American women's activism in a broad transnational context. It offers a complex array of engagements with their efforts to provide rich intercultural histories about the global expansion of American culture and American Protestantism. By presenting multiple cultural perspectives, this important collection challenges simplistic notions about missionary cultural imperialism, revealing the complexity of American missionary attitudes toward race and the ways that ideas of domesticity were reworked and appropriated in various settings. It expands the field of U.S. women's history into the international arena, increases understanding of the global spread of American culture, and offers new concepts for analyzing the history of...
